

Sinclair stations decision to air a series of programs which can only be described as politically motivated cannot be deemed to be in conjunction with the regulations governing the media stations.!

I for one wish to register my consternation at such a move, to do this is to support one party at the expense of another, how can this be considered democratic or in the public interest.?

Please register this as my official complaint against Sinclair stations. I will now be considering what other legal options i have.

Yours isncerly
